

We have just been informed of three (3) more residents have a presumptive positive for Covid-19. The BC Health Department will conduct a contact investigation. We have now 5 cases in town. This highlights the importance that we MUST follow the CDC guidelines including practicing social distancing. Earlier today there were several students on the ball fields. All parks and fields are CLOSED. Please no play dates, sleep overs, etc... the only way to flatten the curve is to follow the CDC guidelines.

**Stay home unless it is absolutely necessary.**

Please check our website regularly for further updates and guides.

Every one of us must do their part to slow the spread of the virus.
